You'll find plenty of incentive to buy at home when you read area merchants' advertisements in this issue.

The Dimmer View

BY MAX GOODWIN

I feel almost like a traitor in reporting this, but facts are facts. Lemon Grove is not a wealthy man's town.

The other day, so I am told, when cafeman (Pal's) Ted Fetters was casting about for a birthday gift for his wife he was overcome by a flash of genius. What does every woman like as well as anything? Money! He got a suitable card then applied to our local banks for a suitable bill. Not a single Lemon Grove bank had a thousand dollar bill. Not only that, only at the downtown branch of one of the local banks could one be found . . . and that was a crumpled, dirty-looking one.

Fetters settled for two crisp, clean five hundred dollar bills which may not have taken as much pleasure out of receiving such a gift as some of you might have imagined.

What nettles me (and you) is that a guy can't get a thousand dollar bill in Lemon Grove when he needs it.

It's shameful!

There are some steamed up property owners in Lemon Grove as a result of the county planning department's rezoning scheme. The county board of supervisors held the hearings as required by law and heard the opponents of the plan. Several opponents of the plan put up a good and valid argument . . . so much so the supervisors decided to restudy the plan. Most observers were led to believe the decision was at least a month away. Even one of the supervisors said as much.

Last week at the supervisor's meeting, at the tail end of the boundary hearing of Lemon Grove incorporation, the docket was "opened," the matter was voted on, and the plan approved.

Caught the opponents of the plan, and this newspaper, which was not an opponent, flatfooted. We had a feature story telling about the month of study the supervisors were going to give the plan before any action would be taken. The plan was already approved while we were telling readers it was a month away.

All of which bears out our favorite motto: Ear ache-us non squabblecum . . . which means that one shouldn't believe it just because a governmental agency says it.

Thank you!

Most editors steer clear of articles on integration and taxes on parochial school. We don't. We have opinions on both. This item.

Survivors include his widow, Frances; a daughter, Mrs. Herbert S. Haag, Spring Valley and formerly of Lemon Grove; a son, J. E. Jr., La Mesa, and two sisters, two brothers and four grandchildren.

LG Boosters Club Suggests New Plan For Broadway Improvement

The San Diego County Road Commissioners this week are studying a new plan for Broadway improvement. The new plan, suggested by the Lemon Grove Boosters, would embody features of two other plans already under study. Both plans would improve Broadway from College avenue to Sweetwater road.

The first plan would improve it 100 feet wide and would have an 18 foot left turn island down the center. The county would pay the entire cost.

The second plan would improve it 150 feet wide but would eliminate the center island and provide for both diagonal and parallel parking. Property owners would pay for the additional 25 feet improvement on each side. This would be approximately $40 a foot under a 1911 improvement act.

The plan suggested this week by the Boosters would develop Broadway to 150 feet between Kempf and Buena Vista with the property owners paying the extra cost, and the two ends of the street would be improved to 100 feet with center islands. The county would pay for the entire improvement ease of Kempf and west of Buena Vista.

Barbara Howell and Marshall Adams represented the Boosters. A group of interested townspeople also took part in the discussions.

J. Mulgrew, assistant road commissioner, represented vacationing commissioner Joe Mack.

Vote Registration Deadline Nears

September 11 is the final day to register for the November 4 election. All those who are not registered, or who have recently changed precincts, may register in several of the markets in the Spring Valley-Lemon Grove area.

$500 Prize Missed By Mrs. M. Cobb

Mrs. M. Cobb, who lives just off Imperial and 69th street at 569 Chester, was wealthier by $5 this week. She won the consolation prize of that amount when her name was drawn by the Lemon Grove Boosters Club Appreciation Days committee. Unfortunately, she was not present at the weekly ceremony held every Thursday at Lemon Grove's plaza, so she did not share to a greater extent in the $500 jackpot.

Mrs. Cobb, who says she buys "everything we use in Lemon Grove" was philosophical about it. "I never won anything in my life, but maybe this is the start," she said.

Most Lemon Grove merchants give coupons to their customers by which these customers may share in a Treasure Chest. No investment of any kind is necessary to participate, the sponsors point out.

The jackpot will grow approximately $100 a week until someone "hits." The first week Mrs. John Hendrix was awarded $300. In the two following weeks absentee winners were awarded the "consolation" prize.

The ceremony will be held again Thursday at 3 p.m.

S.D. City Tax Rate Up 7 Cents

The City of San Diego council last week set the 1958-59 city tax rate at $1.77 for each $100 assessed valuation.

This represents an increase of seven cents over last year.

Budget for the coming year is 47½ million dollars, the highest budget in history.

County Tax Drops 1 Cent

SAN DIEGO (CNS)—Supervisors Tuesday set the 1958-59 tax rate for the county at $1.98 per $100 of assessed valuation, down a cent from the preceding year's $1.99.

The library rate was put at 9 cents, compared with 7 cents for 1957-58.

The county's assessed valuation is now over a billion dollars for the first time in history. It stands at $1,077,621,650, after all exemptions. A year ago it was $960,900,130.

Expenditures for the coming year are set at $62,222,928 in the general budget and at $322,675 for libraries. This compares with $58,259,998 and $258,117, respectively, in the preceding year.

ANNIVERSARY—It was birthday number seventy-five for the First National Bank in the San Diego area and it was marked by a super-duper celebration in Lemon Grove at the local branch. Cake, punch and much reminiscing was the order of the day last week when the all-day celebration was marked. In the photo, taking part in the birthday cake cutting are: Andy Benson, civic leader who led local citizens into convincing the bank nine years ago to come to Lemon Grove; Jack Koop, manager and vice president who has been in charge of the local branch since it opened, and Ernest Newton, local businessman and president of the Lemon Grove chamber of commerce.

City Vote Set For November 25

SAN DIEGO (CNS)—The election to decide whether or not Lemon Grove is to become a city will be held Nov. 25, Supervisors decided Tuesday. The date is the first that could be set after completion of the counting of ballots for the Nov. 4 general election.

County Registrar of Voters Scott Palmer notified supervisors that precinct boundaries had been revised for the election to fit the area fixed by the Board after a public hearing last week. Officials warned that only those within the approved area will be eligible to vote. They also warned that those wishing to vote must be sure that they are registered.

There are approximately 8,000 registered voters now eligible to vote on incorporation, according to Palmer. The area of the new city, if the incorporation vote is carried, will be about 3,500 acres.

However, the boundaries set by Supervisors have aroused opposition in some quarters. Dissatisfaction has been expressed by some residents in the Vista La Mesa and Riviera streets areas that they were not included. Supervisors said they could vote later to be annexed if Lemon Grove became a city.

Owners of subdivision developments in the southern part of the area protested inclusion. These property owners were the Hale Company and Herziger-Harris Builders.

Candidate Forms Ready Monday

Nomination papers for council seats for the proposed city of Lemon Grove will be available at the office of the LEMON GROVE REVIEW beginning Monday.

Bertram McLees, county counsel, said the first legal date for filing would be September 11. The last date is October 2. The election is November 25.

The printed forms will be available, without charge, to any elector who chooses to run for the office.

The REVIEW office is at 7834 Lester avenue.

October Election Set For Raise in Local School Tax

An election on whether to increase the "over-ride" school tax 25 cents, from $1.40 to $1.65 per $100 of assessed valuation will be decided by electors of the Lemon Grove elementary school district October 7.

There will be four precincts with polls established at the Vista La Mesa, San Miguel, Monterey Heights and junior high schools. Polls will be open from 7 a.m. to 7 p.m.

Byron Netzley, school superintendent, said the increase in assessed valuation in the district is failing to keep pace with the rising cost of operating schools. Federal government activities have created an impact on school resulting in the need for more teachers, facilities and equipment. Cost of salaries of all school employes, too, have risen to meet income needs of qualified personnel.

Netzley said the present rate of $1.40 is not realistic and of 50 school districts studied, 45 have a tax over-ride. The Lemon Grove district operating tax has been consistently 20 cents lower than the average for the state. If the new, $1.65 rate is approved, he said, the rate would still be about 20 cents below the new average.

For operating expenses, La Mesa-Spring Valley district is presently 1.70. El Cajon, he said, is planning an election on 1.99.

The new rate, if approved, will put the elementary school tax rate at approximately 2.40 when it becomes effective in July, 1959. A definite rate cannot be established because state loan and local bonds repayments have not been determined. At present the rate is 1.40 for operating; 33 cents state loan repayment; 27 cents local bonds repayment, and 14 cents for employes' retirement fund. This year's rate is $2.14.

Netzley said lawmakers may take a closer and more realistic look at the cost of doing school business and raise the legal limits on operating cost taxes at the next legislature. This would do away with frequent and expensive elections to meet school needs, he said.

Spring Valley School Taxes Up Slightly

School taxes for the La Mesa-Spring Valley school district will be raised 2½ cents from the 1957-58 tax rate, school district business manager Fred Lance said last week. This is much less than the district had estimated, Lance said. He added that the estimate had been between a six and seven cents increase. At the time Lance made the report, it was not official, as far as the county was concerned.

The tax rate for the year 1957-58 was $2.263 per $100 and the new rate (1958-59)), will be $2.29 per $100. Last year's total assessed valuation was $55,014,530. This year's total is $59,852,790.

The prizes were judged by popular vote.

Summer Program Ends With Picnic

The La Mesa Recreation Park department playground program closed August 29 with a huge picnic at El Monte park. About 400 youngsters attended. The program included games, prizes, 600 pounds of watermelon, popcorn, candy and even bubblegum.

The Youth and Recreation Center will close for annual renovations September 10-24, with fall classes resuming on October 1. The winter schedule will be distributed to school children in the late part of September.

The La Mesa Municipal pool, however, will remain open after September 9, with the following schedule:

Monday through Friday, 3 to 5 p.m.; Saturday, Sunday and holidays, 1 to 5 p.m.

Beginners' fencing classes will start September 10 and will be conducted every Wednesday at 6:30 p.m. at the girls' gym, Helix high school, under the direction of Major David Reichenbacker. These classes are sponsored by the La Mesa Recreation Park department. Intermediate and advanced classes are also offered.

LG Exchange Club Plans Fiesta Ball

The Lemon Grove Exchange club will have a Fista party Saturday at the El Morocco Club, according to M. R. Lane, president. Fiesta dress is suggested and a carnival air will prevail.

Tickets may be obtained at the door or by calling Secretary Vaughn at HO 6-3229. Non-Exchange members and their dates are invited to attend.

Savings Firm Buys LG Business Corner

Purchase of a major Lemon Grove proprety was revealed this week when the sale of the northwest corner of Broadway and Main street was recorded.

The 150 x 200 foot corner which houses a service station, paint store, sheriff's sub-station and a doctor's office was sold by the Sonka Brothers estate to the Southland Savings and Loan Association.

John A. Davis, president of the association, said his firm would develop the newly acquired property in the "early future." It will eventually include the transfer of the Lemon Grove Southland Savings and Loan facility, now at the opposite corner on the same side of Broadway, to the newly acquired location, Davis said.

Davis said his firm was studying the possibility of combining offices for professional persons atop the banking facility in a two story, ultra-modern building.

Earliest schedule for the start of the development was estimated as "late next year," by firm executives.

"We at Southland Savings are showing confidence in the continued growth of Lemon Grove," Davis said. "We think our development, which will be a major one, will contribute to the civic and economic health of the community."

The firm, which now has assets of more than 15 million dollars, has main offices in La Mesa and a branch at El Cajon.

The real estate firm of Glen Mitchel and Co., handled the transaction.

Irrigation District Directors Approve Inclusion Petitions

The Helix Irrigation District board of directors held a hearing of petitions last week for the inclusion of lands within the district boundaries.

Petitions for inclusion were submitted by G. G. Bruno and the Cajon Investment Company for parcels in the Lakeview area, J. J. Pearson for a La Mesa parcel, R. L. Benson for a parcel in East El Cajon Valley and the Triumph-Fro Corporation and the Stellardyne Laboratories for parcels south of Gillespie Field. The board adopted an order of inclusion for all of these lands except the parcel owned by the Cajon Investment Company. The hearing on that parcel was postponed until next Tuesday's meeting.

A petition for the exclusion of a parcel southwest of Lemon Grove which was recently annexed to the city of San Diego was also heard and an order of exclusion was adopted. This parcel is owned by Mrs. Maude Hartley of 3827 30th street.

All of the parcels included were formerly in the Rio San Diego Municipal Water District.

Verbal Spanking Given In SV Sewer Slowdown

SAN DIEGO (CNS)—Supervisors Tuesday held off on action against Dorfman Construction Co., for its failure to start work on the construction of sewers in the Broadway area in the Spring Valley Sanitation District.

Contract for the work, to be done under a 1911 improvement act district, was awarded on June 10, and the dearniment of public works made the request for action against the contractor.

However, it was Jean L. Vincenz, director of public works, who asked Supervisors to hold up any penalties against the company.

"I got Dorfman in my office since the letter to the Board was written," Vincenz said, "and I really read the riot act to him. I told him if he didn't come near finishing this job in the time limit of the contract, he'd never get a recommendation for another county job."

Vincenz added that he had also found that Los Angeles had a means of penalizing contractors who didn't perform as required on 1911 act work and that he would pass the information on to the County Counsel's office for use in San Diego.

County officials have found that they lack means to enforce fulfillment of contracts under 1911 acts and are seeking a way of controlling jobs done under the 1911 improvement act.

Highway 80 Map Goes On Display

In order that the public may be better informed regarding the alternate routes under consideration on U.S. 80 between Laguna Junction and Coyote Wells, a larger and more detailed map than any previously shown will be on exhibit from 9 a.m. to 4 p.m. Saturday, September 6, at the Jacumba elementary school, it was announced by Jacob Dekema, district engineer for the State Division of Highways.

An engineer representing the division will be on hand to answer technical questions regarding the routes. This preview will serve to better acquaint the residents of the area with the proposed alternates prior to the public meeting to be held at the school at 7:30 p.m., September 11, Dekema said.

Sups. OK L.L. For Skyline

SAN DIEGO (CNS)—Supervisors Tuesday voted to give the special use permit requested by the Skyline Wesleyan Methodist church, Lemon Grove, for a ball diamond, refreshment stand and bleachers.

The action was taken over additional protests from property owners in the area, who at a series of public hearings described the Little League activities as a "nuisance."

Supervisors a week ago put off a decision until they could visit the field. Approval of the permit was first given and then withdrawn by the Planning Commission. The Little League has used the church field since early summer under contract, although no permit had yet been granted.

Council PTA Budget Set Up

A proposed budget for the new school year was established by members of the Mt. Helix Council PTA August 26 at the home of budget and finance chairman Mrs. J. C. Gomes.

Plans are being completed for the Council's annual fall conference and workshop to be held September 17, 9 a.m. to noon, at the La Mesa First Baptist church, 8111 Orange avenue, La Mesa.

Members at the Council PTA meeting August 26 were Mrs. Robert Higgins, president; Mrs. John Howe, treasurer; Mrs. D. F. Folland, auditor, and Mrs. R. J. Collette, publicity chairman.

Ranch-Man Drowns Son Saved

James Dennie Sr., 36, caretaker of the Rocking B ranch in Lawson Valley, was drowned Sunday in a large cement reservoir, about 200 yards south of the ranch house.

According to sheriffs' report, Dennie was swimming across the reservoir, with his son, James Jr., on his back. Half-way across his wife Helen and friends, Mr. and Mrs. Keith Ziemer of 9180 Ivy Lane, Spring Valley, asked him if he could make it and he replied, "Yes."

Dennie and his son then went under. Mrs. Ziemer the only swimmer in the group, rescued the boy.

Mrs. Dennie reported she walked-three miles to call Sheriff's department.

Deputies Lt. L. C. Ernest and Don Bryan recovered Dennie's body with grappling hooks.

Poultry Growers Asked To List Names, Addresses

The State Department of Agriculture recently announced that all producers of poultry, poultry products and eggs or hatchery operators who market their own production direct to consumers, should report their names and addresses to the Bureau of Markets, California Department of Agriculture, 1220 "N" Street, Sacramento, California.

The department has already requested buyers, handlers, receivers and contractors to report the names of poultry producers with whom they do business. Therefore, a producer whose production goes to a buyer, receiver, handler or contractor, need not report his name to the department unless he has reason to believe that his name has not been reported. To avoid duplications in reporting, it is suggested that a producer check with his buyer before reporting his name.

The information is needed to assist in establishing a list of poultry producers for use in conducting a referendum under the California Poultry Promotion Council law. Under this law, the State Director of Agriculture is required to conduct a referendum among poultry producers to determine if a majority of the producers on the list wish to have a Promotion Council established to promote California grown and raised poultry, eggs and poultry products.

Poultry, as defined in the Poultry Promotion Council law, includes only chickens and does not include rabbits, ducks, geese, or turkeys. A poultry producer means any person engaged in the business of egg production, production of poultry and poultry products, breeding of poultry, or the operation of a poultry hatchery.

Local 4-H Club Gains Recognition

The Lemon Grove 4H club obtained 90 per cent member completion during the 1957-58 year, according to David W. Hinshaw, University of California farm advisor.

Other 4H clubs obtaining member completion of 90 per cent or greater are: Alpine Cloverettes, Alpine Champions, Bonita, Bonsall, Dehesa, Dulzura, El Cajon, Encinitas, Escondido, Hidden Valley, Hillsdale, Jamul, Japatul, Lincoln Acres, Pauma Valley, Ramona, San Dieguito, Santa Ysabel, Santee, and Vista.

Record project completion of 85.4 per cent was achieved by the 1,131 4H members of San Diego county during the club year, Hinshaw said.

This record completion achievement by the members was due to the offorts of the 275 adult leaders in guiding and teaching members in new and improved methods in agriculture and home economics, he said.

Welfare Dept. Seeking Homes For Teenage Girls

San Diego County is the first area in California and one of the few counties in the country where efforts are being made under a federal-program to locate teen-age girls in foster homes to prevent them from becoming delinquents. A minimum of 50 homes are needed presently for girls unable to remain in their own homes because of illness or death of one parent, temporary absence of a parent, divorce or neglect of children, according to officials of social agencies working on the problem.

Homes must be licensed by the County Welfare Department before teen-age girls will be placed in them. Those providing homes will be reimbursed for expenses at the rate of $58 per month, plus medical care and clothing supplied per child.

"We are interested in potential foster mothers between the ages of 35 and 60 who have already raised daughters or who have had children of this age group in their homes, "Miss Marta Sotomayor, County Welfare Department social worker in the teen-age project, declared.

"We look on this as an offer of service to the community on the part of the foster mother, rather than a way in which she will earn a living," Miss Sotomayor pointed out.

Information relative to the teen-age girl's program may be obtained from Mrs. Dorothy Helmick, 645 A street, or by telephoning BE 2-1055, or from Miss Sotomayor, Pacific and Ash streets, BE 9-7561. Letters are preferred in initial contacts.

The Dimmer VIEW

(Continued)

however, will deal only with taxes on schools and only at a local level. This, we think, will make the school issue more understandable.

First, we checked the school population at St. John of the Cross church grade school with its 13 classrooms. Mrs. Claude Sarvis, Jr., school secretary, said the school population this year is 700.

Next, we checked the county assessor's office to see what that assessed valuation of the school facility is. John McQuilken, the assessor, reported it as $30,870.00. Next, we used the good offices of Wilbur Easton, county tax collector to obtain the elementary school tax rate in Lemon Grove. This is $1.91 per $100 assessed valuation. If the school tax were applied to the St. John of the Cross church school plant the income for the school district would be $589.62.

Now, let's turn the picture around. Let's put these children in Lemon Grove school district schools and see what the cost would be. Some may attend another district but the bulk would be in Lemon Grove and the public schools cost of absorption regardless of district would be, generally, the same. According to Lemon Grove Elementary school district executives it would require 18 teachers at an average of ..... $ 6,000

(36 pupils per room is state formula)	108,000
1 principal	9,300
	$117,300
Instructional supplies, ($10 a child)	7,000
Nursing and medical	2,000
Custodian and maintenance (includes salaries and supplies)	21,900
Utilities	2,500
Insurance	800
Pupil transportation	2,000
State Employes Retirement Fund	3,000
Cost of Administration (salaries, office supplies, legal costs etc)	14,500
	$171,000
Site and building (18 classrooms)	$600,000
Equipment ($1000 a classroom plus equipment for multipurpose administration, nurses's office, playground)	28,000
	$628,000
Repayment per year (estimate)	25,000
	$196,000

Based on sheer economics, it is no bargain for the taxpayer to tax this school and assume the obligation of bringing it into the public school financial sphere of influence. The added cost to taxpayers for one year would be more than $190,000.

We know there are considerations other than financial and we are not attempting to obscure this . I have seen studies on the added income resulting from taxing schools but none crossed my desk on costs which would accrue if the obligation were completed . . . that of providing educational adjuncts if we are going to tax 'em.

☆ Eating is important in life; nevertheless, too much of it doesn't make for much living.

Two-Year-Olds Go For $90,000

DEL MAR—Greatest lineup of juvenile stars in history will seek gold and glory here Saturday in the $90,000 plus Del Mar Futurity—the West's richest and most prestige-laden test for 2-year-olds.

A field of 10 or more youngsters will vie over the six furlong dash distance in the 11th presentation of the Futurity which will gross $91,590 or more, making it the richest contest for 2-year-olds ever presented in the West. Winner's share of this booty will be $52,480, with $15,000 to the second horse, $12,000 to third and $9,000 to fourth.

Probable post time favorite for the event is expected to be Tomy Lee, the undefeated English-bred colt owned by Fred Turner, Jr., of Midland, Texas. Tomy Lee, a three-times stakes-winner earlier in the summer, has not had a race at Del Mar this season, but has been training sharply for Frank Childs. Tomy Lee will be ridden by Willie Shoemaker, the nation's leading reinsman, who will fly out from the East especially for this assignment.

PICTURE TALK

by Bob Vaught

EVEN THE HERMITS KNOW

A funny little guy walked into the store. "I'm a hermit," he said. "I've been meditating on an idea that'll make us both famous."

"So?" I asked.

He leaned over the counter. "Ever hear of Kodacolor?"

"Oh, you are really out of it, hermit," I said. "Who hasn't heard that Kodacolor is a wide-latitude film for picture-taking under natural or artificial light conditions?" (I tried to confuse him.)

Bob Vaught

"Well," he said, "I got myself a 35mm camera a couple of years ago. Only one thing wrong with it. Can't use Kodacolor Film. Seems you got to own a roll-film camera to use Kodacolor."

"Let me get this straight," I said. "Is it your idea to have Kodak make Kodacolor Film for 35mm cameras?"

"That's it," he said, jumping up and down. "We'll be famous!"

"I'm really sorry, hermit," I said, reaching for a roll of the new Kodacolor 135 Film. "It's just been introduced."

I thought he was going to cry. Then he started twirling his beard and throwing gold dust all over the counter. "Give me a case of that stuff," he said. "I'm going back to the hills."

"To meditate?" I called after him.

"No, you dang fool," he said. "To take pictures."

Auto Accident Procedure Given By Motorists' Club

During the excitement which generally follows an automobile accident, persons involved frequently forget to take precautions against further accidents or to get all the necessary information.

The following step-by-step procedure outline, prepared by the Automobile Club of Southern California, can serve as a guide for those who may become involved in traffic accidents:

1. Stop. Do everything possible to protect the car and passengers from further damage.

2. Render first aid and assistance to any injured persons.

3. Give your name, address and license number to the other driver and to any police officer who may be present. Show your operator's license. Be sure to secure this same information from the other party.

4. Find out who is the owner of the other car.

5. Get the names and addresses of any persons who were passengers in the other car.

6. Take down the names and addresses of any witnesses to the accident.

7. As soon as practicable, jot down a few notes as to when and where the accident occurred and how it happened. Draw a diagram showing how the car collided and their relative positions in regard to the road, intersection, etc.

8. If the accident occurs in California and involves any injury or death, you must report to the California Highway Patrol, the sheriff's office or to the police within 24 hours.

9. If the accident occurs in California and involves injury or damage to the property of any one person of $100 or more, you must report to the Department of Motor Vehicles within 15 days.

A third generating unit, costing nearly 14 million dollars, has begun operation at the San Diego Gas & Electric Company's Encina plant near Carlsbad.

The unit, which has just undergone a four-week testing period, will generate 106,000 kilowatts. This will raise the plant's capacity of 318,000 kilowatts and increases the company's investment in the plant to more than 45 million dollars.

Got an old thermometer around your house? It may be worth some cold cash, if it's one being sought by Thermometer Corporation of America.

The company is scouring the country for old and unusual thermometers to add to the collection it is assembling. This collection will be incorporated into an International Thermometer Museum which eventually will be sent to cities throughout the United States for public display.

If you do own a thermometer which you think is either unusual or unusually old, send a description or a snapshot of it, together with any background information you can give (such as some famous person to whom it belonged, how long it's been in your family, or other pertinent and interesting information), to: Thermometer Corporation of America, Springfield, Ohio.

Do not send the thermometer itself. If yours is one that is needed for the collection, you will receive an offer for it by mail. All letters to Thermometer Corporation will be acknowledged, even if your thermometer happens to be one that is not needed.

600 Acres Added To School Area

SAN DIEGO (CNS)—Addition of almost 600 acres to the La Mesa-Spring Valley Elementary and Grossmont Union high school districts was approved last week by the County Boundary Commission, over the protests of the Sweetwater Union high school district and the Chula Vista city school district.

The area adjoins the La Presa airport development of Bollenbacher and Kelton, real estate subdividers. It is now in the Chula Vista-Sweetwater district.

Appearing before the comission to voice objections were the superintendents of the Sweetwater and Chula Vista districts.

The boundary change was approved on the basis that a hill splits the area, and that all land north and east of the crest belongs to the La Mesa-Spring Valley elementary system and the Grossmont high school district.

Two school sites in the 600-acre area have already won Planning Commission approval, and representatives of the county superintendent of schools' office say the area can support two schools eventually., Bollenbacher and Kelton have announced plans for housing in the district, depending on arrangements for water, sewer facilities and streets.

Change Made In Quarantine Period For Rabid Dogs

The San Diego Department of Public Health has changed the quarantine period required for dogs who have bitten a person if the animal has been recently vaccinated against rabies.

Dr. J. B. Askew, director of public health, said yesterday that vaccinated dogs which have bitten a person may be held in a pound or veterinary hospital under observation of a licensed veterinarian for only five days.

"If a thorough examination of the dog on the fifth or later day it bit a person reveals no clinical signs or symptoms of and disease," Dr. Askew said, "the dog may be released.

He pointed out that unvaccinated dogs which bite a person must still be quarantined for 14 days.

Dr. Askew said the change applies to dogs which have been vaccinated with a modified live virus or chick embryo vaccine within two years but not less than 30 days, and dogs which have been vaccinated with a nerve tissue rabies vaccine within one year but not less than 30 days. Slips given dog owners by veterinarians at the time a dog is vaccinated against rabies should specify the type of vaccine used.

Foreign Aid $ Could Buy Tuna

Ray Sherer, manager of the La Mesa chamber of commerce, told the Lemon Grove Men's Club Friday that U.S. foreign aid dollars could be better used as a bolster for democratic principles.

He said money, as little as a half billion dollars could be used to buy Japanese tuna products and manufactured items. These could be passed to the needy families of India. This would take Japan out of direct competion with America, he said.

Sherer served as a naval captain during 1950-53 in the Korean theatre. He made a close study of Japanese life and philosophy during this period.

This week the speaker will be Ernest Yahnke, assistant manager of the Bank of America in Chula Vista. He is an official United Fund drive speaker.

Bill Parker presides at the meetings.

Nematodes Are Garden Problem

Nematodes are a serious problem in many home gardens, according to Dan H. Close, University of California farm advisor in San Diego county. Affected plants are often stunted in growth and may wilt or die in hot weather because the damaged root systems cannot supply water fast enough to keep the plant alive.

Methods of detecting and controlling nematodes are discussed in a recently published University of California leaflet titled "Control of Nematodes in the Home Garden." A free copy of this leaflet may be obtained by writing the Farm Advisor's Office, Agricultural Extension Service, Bldg. 1, 4005 Rosecrans Street, San Diego 10, or by Calling CY 8-4181, ext. 271.

Anyone holding a valid California elementary credential may register for substitute work.
